Dear Prof. Kuiper,

Thank you very much for your letter of September 12 and all the other material, which was very useful to me in my preparation of the report to Prof. Yuval Ne'eman.

I have finished my part of the job, and the report and recommendations are already on Prof. Ne'eman's table.

Sincerely yours,

Prof. Vitali Milman

30th October, 1983

Dear Professor Kuiper,

Referring to your letter of September 12th, 1983, to Professor Vitali Milman, I take pleasure in informing you that realizing the importance of your Institute, recognizing its high standard and valuing the scientific contacts Israeli scientists have established thanks to it - our Ministry has decided to be included in the contributors to the IHES, as from the financial year 1984.

Unfortunately, our financial possibilities in view of the present economic difficulties in Israel do not allow us to give as substantial a 'subvention' as we would like to, and commensurate with the importance we attach to the Institute. Our allocation will therefore have to be limited to U.S. \$5,000. We hope we shall be able to do better in coming years.

Please let me know to what account our above contribution should be credited.

Sincerely yours,

T. Grizim
Director-General

Dear Professor Kuiper,

The invitation to the Institute's ceremony to mark the twenty-fifth anniversary of its foundation, reached us, unfortunately, a few days after the event.

I would like to thank you for sending us the invitation, and, in the name of the Ministry of Science and Development, to wish you, and all those at the Institute, heartfelt congratulations on this happy occasion, and our warmest wishes that the next quarter of a century will see as much fruitful research and progress at the Institute as the past twenty five years have witnessed.

Sincerely yours,

Yuval N.

Dear Mr. Grizim,

Thank you very much for your letter and your decision to take part financially in our Institut des Hautes Etudes Scientifiques.

That you have decided under the difficult circumstances in your country you have now to allocate a contribution of \$ 5.000 in our budget 1984 is very much appreciated. Your letter arrived just two days before the meeting of our Board of Trustees and so I could immediately include your contribution for 1984. We also appreciate that you plan to contribute for many years to come and I do hope that your situation will permit to increase ~~the~~ contribution.

I send you by separate mail a note on the IHES, which was printed on the occasion of its 25th Birthday, so as the addresses and conferences which were pronounced on this anniversary.

With my best wishes for the future of your country.

Sincerely yours,

N.H. Kuiper

P.S. Please send the contribution on our account :

Monsieur le Professeur,

L'IHES a bénéficié d'une contribution de votre part de 5.000 \$ en 1984 et nous vous en sommes très reconnaissants.

A notre connaissance, à ce jour nous n'avons pas reçu la contribution 1985. Je vous prie de bien vouloir trouver ci-jointes deux factures pour 1985 et 1986.

Dans votre lettre du 30 octobre 1983, vous mentionniez votre désir de pouvoir augmenter par la suite le montant de cette contribution annuelle. Je crois savoir cependant que ces années sont pour vous très difficiles financièrement et c'est pourquoi dans ces factures, analogues à celle que vous nous aviez demandée il y a deux ans, je pense sage de porter un montant correspondant seulement au taux de l'inflation (sans tenir compte de la baisse du dollar).

Mais, bien entendu, si vous avez la possibilité d'augmenter votre subvention, faites-le moi savoir et je vous ferai parvenir des factures d'un montant plus élevé.

Ci-joint deux documents statistiques, dont une liste de nos visiteurs israéliens. Nous vous adresserons comme chaque année notre rapport scientifique ultérieurement.

Je vous remercie bien vivement par avance de l'aide que vous pourrez nous apporter et je vous prie de croire, Monsieur le Professeur, à ma considération distinguée.

Marcel BERGER

Cher Collègue,

Au cas où vous ne le sauriez pas, je me permets de me présenter : je suis le nouveau directeur de l'IHES, que, je ^{la} sais, vous appréciez beaucoup et auquel vous avez rendu de grands services.

A la suite d'une discussion avec votre collègue Milman, concernant la contribution d'Israël à l'Institut, j'ai écrit au Professeur Grizim.

Ci-joint une photocopie de la lettre que je lui ai fait parvenir. Mais, selon la suggestion de M. Milman, je vous prie de noter soigneusement que M. Grizim ne sait pas que je vous envoie une copie de cette lettre.

Avec tous mes remerciements, croyez, cher Collègue, à ma considération distinguée.

Marcel BERGER

March 10, 1986

Monsieur Marcel Berger
Institut des Hautes Etudes Scientifiques
35, route de Chartres
91440 - Bures-sur-Yvette
France

Dear Mr. Berger,

Thank you for your kind letter of February 24, 1986.

Our contribution for 1985 has indeed not yet been transferred as no invoice had been received prior to the receipt of your letter.

I am giving the necessary instructions to effect the transfer immediately. Unfortunately because of our budgetary constraints we are unable to transfer more than the nominal \$5,000 allocated in 1984. I hope you will understand we are doing our best under the present difficult conditions.

As to our 1986 contribution (also \$5,000) we shall arrange for the transfer in April 1986 as our budgetary year starts on the 1st of April.

Thank you for the documents attached to your letter and we look forward receiving your annual scientific report. Although I personally have no difficulties in acting on letters written in French, it may indeed be easier for my collaborators here if the correspondence would be in English.

Kindest regards,

Sincerely yours

Tanchum Grizim
Director-General

Dear Professor Berger

Many thanks for your letter of the 24th February. I do speak French, so that you can write to me in French. However, I am answering in English because our typist here does not know French.

I have noted your enquiry and shall speak to Mr Grizim about the continuation of Israel's participation in the IHES budget. This had been my intention as a Minister in 1983. I shall also mention it to the present Minister, Mr. G. Patt.

Wishing you success in your new responsibility and hoping to make your acquaintance in person on my next passage to Paris (I have to be in Paris on the 19th June, anyway, for a meeting at Paris I). Louis Michel and Jean Thicory-Mieg will know of my movements.
I remain,

Yours sincerely

Yuval Ne'eman

Dear Professor Berger

This is just to thank you for the extremely kind hospitality of the IHES, which my wife and I enjoyed in mid June for a week. It gave me the possibility of discussing some of the most interesting current issues in theoretical physics, with both physicists and mathematicians, in the enchanting ambiance of the Institute and its surrounding woods.

I would also like to thank Mme Gaume on behalf of both my wife and myself for her understanding and completely unbureaucratic way of handling these matters.

What a pity that her approach has not become the rule in research institutions all over.

With kindest personal regards and hoping one of these days to be able to host you here in Israel.

Yours sincerely

Yuval Ne'eman

Dear Mr. Berger,

Thank you for your letter of June 30 (ref. NG/lb) addressed to Mr. Grizim. I am very sorry about the delay in the transfer of the \$5.000, the contribution of the Ministry of Science and Development to the IHES' budget 1986. This delay was caused by the fact that there has been a change in the appointment of the Director-General of this Ministry, the undersigned being now the Director-General. We have given to-day the order to the Bank of Israel to transfer the amount of \$5.000 to the IHES Fund and are sorry for any inconvenience caused by the delay in the transfer.

Yours sincerely,

Yaakov Saphir
 Director-General

Mr. Yaakou SAPHIR
Director General of the
National Council for Research and
Development
THE MINISTRY OF SCIENCE AND DEVELOPMENT
Kiryat Ben Gurion, Building 3
81000 JERUSALEM
Israël

Dear Mr Saphir,

With your letter of August 4th you announced the payment of \$ 5.000 representing the contribution of your country to our Institute. We received this amount in the meantime and I like to express my gratitude again.

For 1987, I took the liberty to inscribe the same amount of \$ 5.000 in the budget which was approved by the Board of Council. I will send you a corresponding invoice in February 1987 ; I understand this is the convenient time, as your budgetary year starts on April 1st.

As usual, you will receive our financial and Scientific reports in June 1987.

Sincerely yours,

Marcel BERGER

February 27, 1987

Monsieur le Professeur Yuval NE'EMAN
Directeur
Mortimer and Raymond Sackler Institute of
Advanced Studies
Tel Aviv University
Ramat Aviv
TEL AVIV
ISRAEL

Cher Professeur Ne'eman,

diverai Je me réfère à votre lettre du 23 décembre dernier demandant si l'IHES ~~désespérément~~ ^{devrait} être l'hôte d'un regroupement de mathématiciens et physiciens intéressés par des applications de la théorie des groupes à la physique et à la chimie, ce regroupement pouvant être parachevé par un symposium d'une dizaine de jours.

Copie de votre lettre a été transmise aux professeurs permanents et le sujet a été à l'ordre du jour de la réunion du comité scientifique qui vient d'avoir lieu.

Ce projet est à la fois trop précis et trop vague (noms des promoteurs, mais ni programme scientifique ni aspect financier) pour que nous puissions lui donner suite.

Par contre, comme vous le savez bien vous-même, l'activité scientifique de l'IHES est en particulier caractérisée par la possibilité de rencontres entre physiciens et mathématiciens provenant de nombreux pays et intéressés par des sujets communs. Nos moyens (forcément finis) en budget, bureaux, appartements, ne nous permettent pas de recevoir des groupes d'études en dehors de ceux programmés par nos professeurs permanents et notre comité scientifique - avec une seule exception : en juillet et en août pour les groupes scientifiques assurant leur propre financement. Comme vous le savez, les applications de la théorie des groupes à la physique ne sont pas négligées ici. L. Michel, avec H. Bacry (Marseille) et J. Zak (Haifa), sont en train de classer les représentations de bandes d'énergie dans les solides cristallins - et ils ont bénéficié de discussions avec O. Gabber. Un séminaire est organisé actuellement par des mathématiciens et physiciens sur la théorie des cordes. L'an dernier, pendant le séjour de plusieurs mois de V. Kac et les visites de B. Julia, des applications à la physique des algèbres de Kac-Moody furent étudiées. (théorie des champs et mécanique statistique). Cette année Alain Connes expose ses idées nouvelles sur la théorie quantique des champs, utilisant les algèbres de Virasoro et de Vaughan Jones (ici pour six mois)...

Nous recevons beaucoup d'Européens, d'Américains et quelques Asiatiques. Nous souhaiterions recevoir plus de scientifiques des pays de l'Est et de l'Union Soviétique. Mais nous sommes parmi ceux qui en recevons le plus, comme l'indique la liste ci-jointe. Puisque cela vous intéresse aussi, je vous joins la liste de nos visiteurs d'Israël depuis...

Puisque vous maîtrisez si bien notre langue, je vous ai écrit cette lettre en français. Croyez, cher Professeur Ne'eman, à ma considération la plus distinguée.

Marcel Berger

Dear Mr. Saphir,

Coming back on my letter of December 5th 1986, I take the liberty to send you enclosed an invoice of \$ 5.000, representing your expected contribution to our Institute for the year 1987.

It may have your interest to know which visitors of your country we received during the last 10 years. You will find this information on the enclosed list. This winter, we have the visit of Professors V. Milman (Tel-Aviv), I. Yomdin (Beer-Sheva) and Y. Katznelson (Jérusalem) and we enjoy their fruitful presence very much.

Sincerely yours,

Marcel BERGER

Contribution of the Ministry of
Science and Development of ISRAËL
to the IHES'budget 1987

\$ 5 000

Bures, July 17, 1987

Mr. Yaakou SAPHIR
Director General
The Ministry of Science and
Development
National Council for Research
and Development
Kiryat Ben Guiron, Building 3
81000 Jerusalem - Israel

Dear Mr. Saphir,

This is to inform you that we send you by separate mail the Financial and Scientific Reports of the IHES for the year 1986.

For the academic year 1987/1988 we expect to have Professors :

- H. Furstenberg (Jerusalem)
- V. Milman (Tel Aviv)
- B. Weiss (Jerusalem)

and of course we have Professor Ofer Gabber as a long term visitors here.

During this summer, we have the visit of Professors :

- J. Lindenstrauss (Jerusalem)
- V. Milman (Tel Aviv)
- Y. Peres (Tel Aviv)
- J. Zak (Haifa)

so as Professor Y. Flicker who presently has a position in Harvard.

May I recall you of my letter of March 3rd and the enclosed invoice in which I requested a contribution for the year 1987 ?

Sincerely yours,

Marcel BERGER

Dear Mr Saphir,

May I take the liberty of reminding you that our Institute has been hoping in 1987 for a financial contribution from your Ministry of Science and Development similar to the one gratefully received in 1986 (\$5000).

Please find enclosed copies of my letters of March 3rd and July 17th on the subject. Although we are already into 1988, I have received no news from you.

I would very much appreciate any information and help you can offer us in this matter.

Sincerely yours,

Marcel Berger

Dear Mr Saphir,

In recent years the Ministry of Science and Development has graciously accepted to contribute to the budget of our Institute, in recognition of its scientific importance to the international community of mathematicians and theoretical physicists. As you are aware, such help is not only highly appreciated but vital to our continued existence.

That is why I am taking the liberty of again requesting your assistance for 1989. As you asked us to do in the past, I am enclosing a proforma invoice for this purpose. Our scientific report for 1988 will be out in about a month's time and you will of course receive a copy.

Sincerely yours,

Marcel Berger

Dear Sir,

Thank you for your letter of June 14th. It came, however, as a surprise and a disappointment.

The fact is that our Institute still has a very tight budget and each contribution we receive is vital for its scientific and administrative well-being, survival even.

Your decision falls, moreover, at a time when there are more and more exchanges between your country's scientists and ours, as you may see from the statistics and list of publications enclosed. That is why I venture to hope that you may be able to reconsider your decision and continue to support the IHES as you have done in the past. If impossible in 1989, then from 1990...

I am ready and willing to provide any further information you may desire about the Institute. Very shortly we will be bringing out a brochure presenting the IHES which I will not fail to send you.

Yours sincerely,

Marcel Berger

Professor M. Berger
Institut des Hautes Etudes Scientifiques
35 Route de Chartres
91440 Bures-Sur-Yvette
FRANCE

Dear Professor Berger:

Your letter found me in USA (so, it took some time). About "floating" terminology: it is not mine. In our paper with Pajor (Vol. 1376, Springer Lecture Notes; you have preprint IHES), in Appendix, we gave all references. The notion is the following one:

If K -convex symmetric body and $0 < \delta < \frac{1}{2}$, then the floating body K_δ is the envelope of all the hyperplanes that cut off a set of volume $\delta \cdot \text{Vol } K$.

(No discussion about equilibrium!)

It was introduced by C. Dupin (1822) and came to our attention through the Schütt-Werner paper (see references in Appendix to the mentioned above paper). The statement from this Appendix which I said to you uses this definition of a floating body and not "equilibrium" one from Ulam's problem.

By the way, I did my job with respect to a letter to the Minister of Science (in connection with a contribution of Israel to IHES). The letter, explaining the scientific significance of your Institute and an importance of continuation of such contributions, was signed, besides me, by A. Dvoretzky (the most important factor), Piateski-Shapiro, Furstenberg and Lindenstrauss. Also some other actions were promised to me by Dvoretzky.

Also I learned that this Minister (Weizmann) is a pragmatic one: a political part will not interest him but the fact that many Israeli mathematicians have important and productive connections with the Institute is crucial. (Unfortunately, I advised you in the opposite way having in mind the previous minister). We wrote our letter according with the new line.

The result is anyway unpredictable.

Yours,

V. Milman

Dear Mr Grizim,

Please find enclosed the Scientific Report of the IHES for 1990, as well as the 1990 leaflet giving lists of scientific committee members, administrators and donors.

As you will see from the report, we have been successful in maintaining the highest scientific standards, thanks to the generosity of our donors at home and abroad. May I hope that, in spite of pressing home needs, your Ministry will again be able to contribute to the budget of the IHES for 1991?

Just in case this is possible, and in order to cut down on paperwork, I enclose a pro forma invoice such as you required last year. If it does not apply, just disregard it.

Yours sincerely,

Marcel Berger

Bures, le 7 septembre 1991

Mr. Néeman

Monsieur le Ministre,

Au nom du président de l'Institut, Monsieur Marcel Boiteux, et bien sûr moi-même, je vous remercie d'avoir réussi à faire en sorte qu'Israël continue sa subvention à l'IHES. Les choses ont été très vite.

Mais j'ai aussi le plaisir d'avoir à vous remercier pour avoir réussi à obtenir que la fondation Sackler fasse une dotation à l'IHES. C'est avec la plus grande confusion que je le fais seulement maintenant ; je n'ai aucune excuse pour ne pas l'avoir fait plutôt. Cette dotation de 500.000 francs français permet de rémunérer un visiteur pendant une demi-année ; il figure de façon spéciale sur nos listes de visiteurs, je vous en joins une.

Bien faible remerciement, mais fait de tout cœur, je vous prie de bien vouloir trouver ci-jointe une brochure de l'IHES dédiée par ses professeurs permanents actuels, plus René Thom et Alain Connes.

J'espère avoir le plaisir de vous rencontrer dans un avenir pas trop lointain et je vous prie de croire, Monsieur le Ministre, à mes sentiments respectueux.

Marcel Berger

Dear Mr Grizim,

Please find enclosed the Scientific Report of the IHES for 1991.

As you will see from this report, the highest scientific standards still prevail, thanks to the generosity of contributors at home and abroad. May I request the continuing support of your Ministry for 1992 ?

I make so bold as to enclose a pro forma invoice such as you required last year. Please disregard it if it is not appropriate.

Yours sincerely,

Marcel Berger

Monsieur le Directeur Général,

Je vous remercie infiniment de la contribution 1992 de \$5000 du Ministère de Science et de Technologie, trouvée à mon retour de voyage. Nous sommes très heureux de votre soutien continu dans ces temps assez mouvementés.

Veuillez transmettre nos remerciements à Monsieur le Ministre.

Je vous prie, Monsieur le Directeur Général, d'accepter l'expression de mes sentiments très distingués.

Marcel Berger

Dear Mr. Berger,

Please be advised that we have transferred these days to the Credit Lyonnais, Cl. Orsay, Code Banque 30002, Code Guichet 08941, No de Compte 0000079002C, through the Bank of Israel, the sum of 5,000 dollars as the contribution of the Ministry of Science and Technology of Israel to the IHES budget 1993.

With kind regards,

Sincerely yours,

Frieda Soffer
Head, Budget and Administration Division

Dear Madam,

These are difficult days everywhere and so I appreciate more than ever your Ministry's faithful support of the IHES. Thank you very much indeed for your contribution of \$5000 for 1993. Please convey our thanks to the Minister and to Mr Grizim.

Yours sincerely,

Vendla Meyer

Dear Mrs Soffer,

I am very sorry to bother you with a request for further details on the way in which your contribution of 5000 dollars was transferred to our account with the Crédit Lyonnais in Orsay at the end of July.

They do not seem to be able to trace it and have asked :

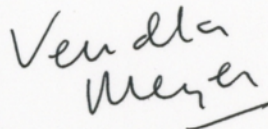

whether it was sent by mail, cheque, telex, or swift, (reference?)

your Bank of Israel references

whether there was any intermediary bank involved.

Please forgive me for this extra trouble.

Yours sincerely,

Vendla Meyer
secretary to Mr Berger

Dear Mrs Soffer,

Following your phone call to Professor Berger this morning concerning the return of your contribution by our bank, please accept our apologies. It seems that we left out of the bank credentials we gave you the term "clé RIB : 06". Please find below our full credentials. I am extremely sorry to have caused you this extra inconvenience.

Yours sincerely,

Vendla Meyer

Dear Mrs Soffer,

I am sorry to bring up once more the question of your \$5000 contribution to the IHES for 1993. Your secretary's fax letter of October 18th 1993 indicated that a transfer was to be made to our bank, but our account has not been credited with the sum. Could you please have this checked ?

Now we are in September 1994 and our new Director is Professor Jean-Pierre Bourguignon. I am taking the liberty of enclosing a new proforma in the hopes of a contribution for 1994. However if this is inopportune, please disregard it.

Yours sincerely,

Vendla Meyer
secretary to Mr Bourguignon

CONTRIBUTIONS TO THE IHES

A grant of US\$ 5000 was first accorded to the IHÉS by the Ministry of Science and Development of Israel in 1984, greatly thanks to the efforts of Professor Yuval Ne'eman.

This contribution continued yearly until 1992 with an interruption in 1989. Since 1990 it has been paid by the Ministry of Science and Technology. Mr Ne'eman was then again Minister of Science. Our direct interlocutors there were Mr T. Grizim and Ms Frida Soffer.

Also thanks to Professor Ne'eman's recommendation, we received in 1990 a donation of 500,000 FF from the Raymond and Beverly Sackler Foundation, via the French American Foundation, for the purpose of financing wholly or partially the stay of a visitor each year.

From 1989 to 1993, the IHES participated in a PICS programme (*Programme Internationale de Coopération Scientifique*) with Israeli scientists. On our side this was financed by the CNRS and the *Ministère des Affaires Étrangères*. The scientific impetus was provided by IHES professors Jean Bourgain (Fields medal in 1994) and Mikhael Gromov (Wolf prize 1993), and in Israel by Professors Vitali Milman and Joram Lindenstrauss.

Enclosed lists of visitors are witness to the long and fruitful collaboration between the IHES and the scientific community of Israel.
